William R. Mathews, president

Services: Established in 1986 to fill a gap in the delivery of dental health care as a result of public policy changes and the subsequent move toward privatization, MAH provides quality, affordable comprehensive dental services for federal, state and local government agencies.

Growth factors: A focused approach to cost-effective dental health care service delivery.

Financing: Personal funds.

Challenges ahead: Mid America Health regularly faces challenges to staff openings at military and correctional locations. Near-term challenges will be absorbing anticipated growth in the military side of our business and expanding our corrections business to additional states and other governmental entities.

Industry outlook: Favorable.

Entrepreneurial advice: Stay focused and take calculated risks.
